Beautiful heifers to handle through yards, put through force and pound by one person. In the paddock handled with bikes or horses and dogs . heifers were preg-tested at assessment so some were a little more active than others in the crush however they settled quickly

Handled With Bikes , Dogs , Horses , On foot

Assessor Comments A good quality mob of feeder heifers to suit domestic or export feeder markets, with the majority showing good potential for growth. Preg-tested empty by a vet . Some heifers showed skin blemishes from ring worm however this should not impact their performance. The vendor is prepared to pre-treat these cattle after purchase by purchaser in tick free areas and present when necessary.
