Assessor Comments	A good quality line 92 Composite type heifers are on offer. They have plenty of bone and stretch to take through to feedlot or heavier kill weights or future breeders. Heifers mainly sired by Simmental and Charolais Bulls with one Angus bull. Cows are mainly Droughtmaster X, Charbray, Charolais, Brangus, and Composite cows. Most of the heifers are vendor bred however, some are not vendor bred as were purchased as a cow & calf unit. A great line of weaned heifers that will continue to move forward and be a quality asset to any future breeder operation or to suite any market.
