Cattle professionally weaned and walked very steady into and out of yards. This year weaners had extra full day education through yards. Assessor helped to work cattle through yards and onto weigh-box, all steers walked calmly through yards. Have been through yards 6 times well trained and educated with "Low stress management in place"

Handled With	Bikes , Horses , Low Stress Stock Handling© practices (23-04-2015) , On foot
Assessor Comments	55 high grade vendor bred young Angus steers extremely quiet to work and assess. Born in the Adelaide Hills lead of the drop, bred from large frame females.100% weighed range 228-360 avg 310 full yard weight. Repeat annual offering fully weaned steers. Tight even draft of young angus steers. Exceptional growth for age. Never Ever accredited. Refer video for quality and temperament. Will re weigh on delivery full less 5%. Fully recommend weaned quality stock on the improve after weaning program. Weaners after very tight winter period in the Hills have done well and are 1 week earlier than last year but 10 kg heavier. Vendor offering second line very similar quality across both offerings.
