Cows showed very good temperament throughout assessment. Whilst they were eager on getting back with their calves after being drafted off they still were easily blocked up and responded well to movement. Overall nice quiet cattle.

Assessor Comments	One offer is a good quality line of 41x39 Angus cows & calves. Cows are Reiland blood and are in the prime of their breeding lives being 5-6 years of age. They have been re-depastured to a Bongongo Angus bull since the 1/10 and will be in up until delivery. CAF are sired by high indexing Bongongo bulls and present fresh and evenly besides one smaller later drop calf. All calves have been marked, the steer calves have an orange management tag and the heifer portion have yellow management tags. This line of potential 3in1 units has had all the hard work done for the buyer and offer plenty of breeding or trading options. Cows are on the do and for the good part of them still have plenty of capacity for more kilos. The 2 cows in this line without calves will be priced less $200 p/hd of the sale price. For further information please call assessor.
