Assessor Comments	**Quality PTIC EU Angus Heifers Calving at 2.5 YO - 72 in the line, selling as 2 lines of 36hd** 36 x PTIC EU Angus Heifers that are Due to commence Calving early January for 6 weeks at 2.5 years of age. The heifers are joined to Low Birth weight, calving ease Te-Mania & Hazeldean Bulls. They are bred from a large herd of big Angus cows with a long history of Te Mania & Hazeldean Angus blood. Given these Heifers are a spring drop but calving in the autumn the extra 6 months has given them time to mature and grow out as a female which i believe will be easier calving. The Heifers present in fresh forward to prime condition, showing all the qualities of outstanding future breeders having a soft coat, deep flanks, thick muscle, heavy bone and a nice phenotype. *Assessed as a line of 72 Heifers selling as a run out the gate of 2 x lines of 36hd.
