Assessor Comments	Part of a complete and genuine herd dispersal due to sale of property. Self replacing Angus herd for many years based upon Karoo genetics. These cows are just an even split as they were being run. A mix of ages from 2019 drop through to 2022. Have been running back with the Karoo Angus sire since mid October for a predicted start of August calving. Cows genuine year in year out performers. Any cows not producing a calf through to weaning have been culled from the herd annually. Honest hard working cows with many productive years in them. Calves are marked and in great fettle. Certainly worthy of a close look. Two other practically identical mobs in same sale.
