Assessor Comments	A Quality line of 2.5 year old Primeline ewes, these ewes reared 135% of Poll Dorset lambs last year and did an excellent job on them. A large number of ewes have a lump on the side of the jaw due to gudair vaccination but as these ewes were purchased we don't have any details. Good Quality young ewes in the prime of their lives. Ewes normally would be scanned but time didn't allow as property has been sold. Very good sheep.
