Assessor Comments	A great line of Vendor Bred PTIC 2nd calving Angus females. They are available as part of a herd reduction. PTIC to calve April/May 2026. Already proven breeders with a lot of their lives Infront of them. They present to the market in ideal condition only weaning their 2025 calves off late November, having done a fantastic job on them. Please note tag 2 has slight pink eye scaring. A neat line that would be a great start up herd or slide into your existing herd.
