Assessor Comments A good to very good quality line of vendor bred EU Angus and Angus x Heifers. They are medium to large frame and suit to take directly onto feed for the domestic grainfed market. They are grain and antibiotic free and would also be eligible for a pasture finished program. The top 50% would make very good quality future breeders and should turn into large framed cows. Vendor has an extended but not continuous calving and has multiple paddock based weanings each year. Please note 1 x 2024 tag hfr noted in mob and she was mouthed and was 399kg and just breaking 1 tooth. They are sired by good quality Te Mania Angus bulls. Approx four heifers have slight hair loss around the neck, eyes and face. The heifers are unjoined and have been vet preg tested 100% NDP for buyers confidence. These are nice quality heifers which are generally soft in the coat and suit a range of high quality grass or grain markets.
