Well handled and generally quiet. Steers would good to handle through the weighbox. Once in bigger yards steers were fine without pressure and would walk feely through a gate

Handled With: Bikes , Vehicles

Assessor Comments: Well bred line of F1 steers. Steers are performing well in a drying season and ideal to background for a grainfed program if required. They present evenly in type and in slightly forward conditon. They are bred from genuine large frame angus herd

	with progeny well sought after through feedlot programs like JBS. Steers would generally be taken through to heavier weights if season allowed. Note 1 steer with old eye scarring. Not detrimental. Vendor also offering a line of heifers in same sale.
