An absolute text book example of what weaned calves are supposed to come out like! A credit to all involved, a pleasure to handle. Not a sound in the yards throughout the entire assessment process.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A neat B Double load of absolute "A Grade" Angus weaner heifers. July / August drop calves from a longstanding Te Mania based herd. Note no heifers have been retained from this drop so this is the absolute "cream of the crop" so to speak, a great opportunity to secure some highly sought after genetics that would slot into just about any program. Calves have been weaned for a month onto Lucerne hay and Johnsons Hay based pellet. Present in top notch condition. Eyes are very good given the weaning and dusty conditions. Any blemished eyes have been removed. The temperament is faultless, not a sound or misstep from anyone throughout the entire process. You will go a long way to find a better presented line of weaner heifers this autumn. Highly recommended
