Assessor Comments	These are a very high-quality line of July/ August '25 drop heifers that weighed 263kg full (210-311kg) at assessment. A small tail was removed at assessment. These calves are were properly weaned and very well educated, all deemed quiet to handle. These heifers are normally retained and as future breeders but are being offloaded early due to the tightening season. They are setup perfectly having never had a setback and are demonstrating excellent weight for age. They will go on to make very good breeders or grow out to feeder/ kill weights. They are Grassfed & Antibiotic free being part of the Greenhams Never Ever program. Please note; vendor also offering 48 weaner steers in this sale.
