Notable Traits

	Traits
2 Head	Blight scarring in 1 eye

Assessor Comments Buyers a line of X Bred heifers that would suit a trade feeder market, they could also be taken on to heavier feeder weights or grown out to do a grass export programme. The buffalo fly scarring was all healed, the heifers did present with buffalo fly & would require further treatment. While the Brangus type heifers did show Bos Indicus characteristics there was minimal crest (see photos & videos to make own judgement.) Vendor has 24 Angus x heifers same sale.
