Assessor Comments	A good quality line of Vendor Bred British/Euro cross heifers that are ideal backgrounding cattle, heifers have plenty of frame and present in very fresh condition. Heifers came through weaning really well and have continued moving forward making them the perfect backgrounding article to go on upcoming crops. Heifers to suit all domestic feeder and supermarket avenues along with the added advantage of being grass fed eligible to later suit all grass finished markets (grass fed and antibiotic free declaration is available on request). A great opportunity to take advantage of current market prices to secure a good investment article that can only go one way.
