	3 Head	Medium to large pink eye scaring in one eye, Vision still fine..
	2 Head	Tinge of red through coat.

Assessor Comments	A good quality line of Angus x Angus feeder steers that offer great compensatory weight gains as steers have been hindered by continuing dry weather. The stony station herd is a foundation of Stud Hazeldean cows. These steers were sired by AI sons of leading Angus sires in Chilton Park Moe, Rennylea G420, Murry El Grando G20 & Aryvale Bartel . Steers are all frame and will bounce away in Feedlot environment or quality pasture while backgrounding, weighed to a avg 392.5 Kgs full at assessment. Usually sold direct to feedlots at heavier weights but with winter on the door step and steers must be sold, great feeder types to go straight on to feed plus steers have been Bovilised with Coopers MH + IBR. Grass Fed and Antibiotic Free. Please see another two lines of PTE Feeder heifers in this same sale from the same vendor.
