Quiet: 18 head	Quiet: 18 head	Temperament not assessed in Paddock

Steers handle very nicely through the yards and up the race. Just about all stood calmly in the crush and exited smoothly. A pleasure to work with.

Assessor Comments A mostly very good quality line of vendor bred Shorthorn steers. These are the older of the steers in the sale and were yard weaned in Jine 2025. They are mostly large framed steers that suit to take directly onto feed for the heavy supermarket or export trade. They have not had access to grain and would be eligible for grass finished programs. They were assessed as 84% very good quality, 10% good quality and one fair quality steer just lacking a little frame and muscling. These steers have been going along well but the season is starting to turn. They had a LWR of 370 to 536 kg with lighter steers also listed in this sale. Please note agent can complete NLIS transfer at no charge at the buyers request. These steers were very good to handle in and through the yards. They are nice and fresh in the coat and will continue to move forward with access to good quality feed.
