Assessor Comments: This is an outstanding line of Angus Steers out of a highly recognised cow herd. The steers are by Dunoon, Rennylea and

	KO Angus genetics. These have for many years been sold direct to Rangers Valley Feedlot performing to a very high standard. All bulls used in the herd average in the top 20% for growth carcass and IMF. There's 1 steer in the mob with active pink eye at assessment, which were treated and will be followed up. This is a fantastic opportunity to secure a great line of Angus steers with many years of genetics and performance. Vendor has 3 other lots in this sale.
