|             | Quiet: 38 head | Quiet: 34 head | Temperament not assessed in |

All cows were easy to handle throughout the assessment process. 4 cows became slightly agitated when on the weigh platform but quickly settled when returned to the mob

## Handled With

Bikes , Dogs , On foot , Vehicles

## Assessor Comments

A quality line of 38 seven year old Angus Cows that are PTIC to the Angus bulls 'SAV Thunderbird' and 'Connealy Amazing' who are Nandawar AI bred bulls. The Nandawar bulls are from a top commercial Monaro herd. The cows were scanned by Monaro cattle scanning services and by joining dates they will commence calving from mid-February. These cows are 619kg at time of assessment and present in forward to prime condition after all rearing calves in the last season. These cows are proven mothers and produced big sappy calves this season who were weaned off them on the 19th of October and have had no issues keeping the weight on and getting back in calf. These cows present a fantastic opportunity for a purchaser looking to add to or start their breeding operation, they have a lovely temperament, are big framed with plenty of weight and are proven breeders.
