Assessor Comments	15 mixed age crossbred cows PTIC by Monaro cattle scanning services to AI bred Nandawar Angus bulls. The Nandawar bulls are from a top commercial Monaro Angus herd. By joining dates, they are due to start calving from mid-February. These cows are 443 kg at time of assessment and present in strong store condition. All cows have successfully reared nice sappy calves this year which were weaned off them on the 10th of October and these cows have had no issues getting back in calf. These cows were purchased off Auctionsplus in June 2021 and originally came from Lake Nash Station in the Northern Territory and were deemed to be 4-8 years of age at that time.
