Temperament

Yards	Crush	Paddock
Quiet: 25 head	Quiet: 20 head Slightly Stirry: 5 head	Quiet: 25 head

Heifers had great temperaments and were a pleasure to handle especially out in small holding paddock, a small amount of heifers were a little edgy in the crush only due to coming through twice recently for processing and pregnancy testing, Once weighed though heifers settled instantly.

Handled With: Bikes

Notable Traits

	Traits
2 Head	Heifers showing slight navel
1 Head	Tinge of red through coat

Assessor Comments: An outstanding line of Angus Heifers that would not look out of place in any ones front paddock. A Quality line of Booroomooka Angus genetics on offer that make these future breeders the complete package. Heifers are large framed soft easy doing females that show plenty of stretch and femineity, all of the attributes you want see in future breeders. Heifers present in great condition and weighed an averaged of 555 kg full at assessment. Heifers have been joined to quality Booroomooka sires and tested positive in calf in early January, joined to a tight period of just under eight weeks heifers will commence calving right in the slot in early July. Quality females from a herd that produce quality off spring that are not to be missed, Rain is on its way so don't miss a great opportunity to secure some lovely quality bred Angus PTIC females.
