Assessor Comments	18 mixed age Angus and Angus X Cows PTIC to AI Bred Nandwar Angus bulls. The Nandawar bulls are from a top commercial Monaro herd. They were PTIC by Monaro cattle scanning services and by joining dates are due to start calving from mid-February. These cows are 526 kg at time of assessment and present in forward store condition. All cows have successfully reared lovely big sappy calves this year who were weaned on the 10th of October and these cows haven't had an issue getting back in calf. These cows were purchased off Auctionsplus in June 2021, they have been bred on Lake Nash Station in the Northern Territory and were deemed to be 4-9 years of age at that time. Buyers, please note that a majority of these cows have old pink eye scarring and 90% of these cows have white markings.
