Assessor Comments	Presenting a line of PTIC Hereford cows. Cows present in great forward condition to calve down from the 13 of march for 8 weeks and are only being sold due to vendor wanting to make room for the next generation of females. Bahreenah Poll Herefords have been breeding quality hereford cattle for over 90 years and these cows would make great additions to any herd. Cows are fantastic to handle in both yards and crush and have been pregnancy tested in calve to Supple Salami SBR S014 and Marwarra B Stars Align S003. Buyers please note one cows has old pink eye scaring in one eye but does not affect eye sight.
