	Frame		Quality Grades		Store Condition		Muscle Score
	Large	50%	Good	100%	Store	100%	D 100%

	Medium	50%	
Temperament	Yards	Crush	Paddock
	Quiet: 78 head Slightly Stirry: 2 head	Quiet: 78 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	These cattle have been properly handled since arriving at Tubbo making the temperament a real feature of this line of cattle. Cattle were worked from yard to yard, up race and through crush with minimal fuss. Cattle were very quiet and pleasure to work with.		
Handled With	Bikes , Vehicles		
Assessor Comments	A good line of Angus Heifers, medium to large frame, PTIC to low birthweight Burenda Angus bulls to calve early March for approximately 8 weeks. It has been a case of two extremes for this group, with tough dry conditions through the autumn and early winter, and with an unprecedented wet spring, now much of the property is covered in water. Cattle are on the improve and present in fresh store condition. These heifers are all frame and will continue to fly forward given the right conditions. These heifers were purchased early this year with the intention of calving down, but the recent weather conditions have forced a change in direction. There is the odd cloudy eye in mob, not considered detrimental. There are 317 heifers in this group, to be sold in various lot sizes to suit trucking, and will be split as runs out the gate.		
Assessor	James Croker (Level 1 Accredited) Phone: 0427 753 533		
Delivery Period	02/12/2022 to 09/12/2022 (8 days)		
Delivery Point	45km west of Narrandera on Sturt Hwy		
Ticks	Cattle are not in a tick infested area.
