Assessor Comments	Offering 55 Hereford Heifers and Calves. The heifers averaged 408kg live at assessment and are not station mated. The calves at foot are unbranded and range from 43kg to 232kg and look to be moving forward with good feed on offer from recent storms. The heifers were purchased ex Mt Riddick Station as station mated heifers and calved out. They are well handled and were a pleasure to work in the yards. Please note there is some pink eye in the cows and some of the calves, of which all were treated at assessment.
