Assessor Comments	An exceptional line of Hazeldean blood Angus heifers that are ptc to calve March for 6wks . These cattle perform in the toughest times very well and are very reliable. They will go on to grow into functional females to keep for years to come. These females grow to a very profitable mature age of 600-650kg and put everything into their calves . This is a run out the gate of a total of 120 1 Mark vendor bred heifers . A fantastic opportunity. There is also 33 hfrs on the same place on Agistment owned by a family member in this sale , same joining details . Please note that a small percentage of heifers have a white udder but are pure angus .
