	Cattle are generally well handled with dogs and bikes, video taken in larger holding yard, heifers we're settled and content
Handled With	Bikes , Dogs
Assessor Comments	A nice line of EU angus heifers that the vendor had selectively joined to Top quality Booroomooka & Hazeldene Angus bulls(birth weights attached in joining details) Vendor has purchased quality Angus bulls from reputable Angus studs including Booroomooka, Booragul & Te Mania in a self replacing herd. Heifers are preg tested for a 9 week Calving with a large portion only joined for six week window . Heifers present in ideal condition to calve down in the coming months as they are not carrying a large amount of condition. Generally all heifers are true to type for the breed and given the right opportunity should grow into very nice females in time. Heifers show sound confirmation and are well grown showing good length of body and depth. The quality of the bulls the vendor has been selecting in this closed herd is reflected by the quality of these females. Two lots of 50 offered as a run out of the gate.
