Assessor Comments	An opportunity not to be missed. Classed breeders rising 3.5 years from within the Scotts Angus commercial herd. These rising second calvers are proven breeders and have their whole productive life ahead of them. These young cows are displaying great weight for age and are in top condition. They are PTIC to Scotts Angus NGER239 and NGER122 with EBV's and pedigrees attached in photos. These young cows will complement any herd and would be ideal for anyone looking to get into some top quality Angus genetics. They are in prime condition with health treatments up to date and are ideal to put out to calve down. These cows come highly recommended and should you require any further information please call.
