2 Head	White on underline to navel.

Assessor Comments	A very good line of Angus steer weaners, being the complete drop. Presenting in good store to forward condition. Still showing their winter coat, should soften up as warmer weather arrives. Steers displaying typical breed characteristics, of bone, depth and type. Out of well breed 1st calvers, being dropped in a 6 week period, by registered Jarobee Angus bulls. Ideal to grow out targeting current feeder markets.
