Steers are well handled and travelled well through the yards. Some steers did get a little agitated on the scales but settled quickly on return to the mob

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: A nice even line of quality vendor bred steers, these steers carry both Sprys and Bongongo genetics. The steers have really performed given the autumn and winter they had. Steers are in forward condition and will continue to go forward on quality feed. Vendor purchases top end genetics from the above studs. Steers could be grown out to export weights without

	any issues. ** Vendor would be happy to sign any grass-fed paperwork if so was the need**
