Assessor Comments	Quality line of impeccably bred PTIC heifers that were selected purposely to form the nucleus of a breeding herd for many generations to come. Heifers were originally from Ballarat district, Wolgan Angus bred heifers carrying Langi Kal Kal Angus bloodlines. Joined to the Stud Ireland bulls Ireland Rawdon R120 and Ireland Quba from the 22/06/22 to the 15/08/22 to commence calving from the 20/03/23 onwards. Selected low birth weight bulls with high growth rates. 28 heifers in total drafted over two lots based on bloodlines joined to the same Stud Sires making a near double load. A further 64 heifers of the same bloodlines and age are also offered that are synchronised by AI to Murdeduke Kicking K428. An outstanding line of PTIC heifers to complement any herd or for those that are building numbers, very quiet and easy to work with, highly recommended
