Assessor Comments	A terrific line of young females PTIC for their third calf to calve in the Autumn. They were joined from 3/6-26/8 to a Speckle Park Bull. These cows are large framed females that when filled out should weigh in excess of 680kg+. These cows have had large autumn drop calves recently weaned off them and since three have been putting on weight at 2-3kg per day. These cows are Anvil Angus blood and are showing the true traits of the Anvil genetics, they are big boned large framed roomy females. These cows will fit any breeding program going forward and in the prime of their life. Highly recommended.		
Assessor	Jamie Quinlan (Level 1 Accredited) Phone: 0419 894 232
