Assessor Comments	A very good line of Angus Steer Weaners being sold A/c Breeder. Vendor has been using Coffin Creek bulls for some time. Steers are usually grown out to feed lot weights, early sale prompted this year due to poor seasonal conditions. Currently being containment fed on Barley and Cereal hay with additives, recent figures indicate average weight gain of 1.4kg per day. Several steers affected by Ring Worm, one steer with slight pink eye scarring, one eye.
