Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	13 Angus cows PTIC to commence calving 1st of march calving for 8 week. These cows are exceptionally bred and you would go a long way to find better genetics. Parkland have been using top Mureduke Bulls for the past 35 years and often top the Ballarat store sales. These cows are only being sold as they missed their spring joining due to an issue with the bull. These cows were then retained and joined to the Murdeduke bull for an autumn calving. These cows present a rare opportunity to purchase proven breeders that normally would be retained in the herd till at least 10 year olds.
