Assessor Comments	Spring drop Angus heifer calves, weaned 7 - 8 months old. These heifers are A.I bred, A.I Sires used were Sitz Stellar, Oak Hollow Hallmark, Millah Murrah Rector and Tehama Patriarch. After A.I the cows were backed up with Hazeldean P79, Millah Murrah Universe U137 and Brooklana T76. These little heifers are full of breeding and have a reputation locally for doing well were ever they go given the right opportunities. Perfect little cattle to tuck away and do something with in the spring. Given the opportunity to grow out, would make nice future breeders for someone down the track. They are handled on a daily basis , and use to running behind a single hot wire. These little heifers have gone rough in the coats now with the cold autumn nights kicking in. Please note = There is an odd heifer amongst them with an old pink eye scar. Have included photos of A.I Sires, Vendor also has another lot of steers in the same sale.
