	The temperament of these cattle is good. 2 or 3 heifers were agitated in the yards however it was very wet and muddy and blowing a gale. Not the best conditions to be assessing. In the paddock and pre yards they handled well.		
Handled With	On foot , Vehicles		

Assessor Comments	A nice line of 16 Black heifers which have been sired by a Black LimFlex bull to give them some stretch and hybrid vigour. You could say they are composites that look like Angus. They'll turn into big long mothers that will give a extra growth to their calves with this euro influence. Calving from 19th of March onwards they still have plenty of growing to do. The Adameluca LBW sires have been giving NO problems calving so calving ease will be no worries. Plenty of future here and a nice even line of females to boot.
