	Very quiet young steers. All bucket reared, extensively handled. Very quiet to deal with in the yards, push them around by hand. All led up the race well, bar the odd steer that turned around in the race. Quiet to walk amongst in the paddock for photos. Quiet, well weaned steers that could be handled by a stock person of any experience.
Handled With	Bikes , Dogs , On foot , Vehicles

Notable Traits	Traits
	4 Head Minor eye blemish (none greater than a 5c piece sized white dot)

Assessor Comments	Quality line of young, well started steers. All bred by the vendor, bucket reared for an extended period, weaned on to pellets early, then started on a grain ration. Marching ahead and showing excellent weight for age. These Calves are throwing well to the attributes of the Angus, with excellent shape, very good depth or body and good length. An ideal line of steers to go any way with - continue on a feed ration or turn out to pasture and target a domestic or export market. Buyers please note vendor has another lot of steers and a lot of heifers at a different property in same sale.
