Assessor Comments	A neat line of 18x19 station mated Angus cows and July/August drop calves that are in great condition and doing a nice job on their calves. In this group there are 15cows on their 2nd calf and 3 cows on their 3rd calf. Cows and calves present in very good order given the wet conditions in the area and will continue to improve. Cows are still running with the Rossander bull and have not been pregnancy tested. There is a set of twins in this mob. Please note 3 cows have white on their udders, 2 cows have slight pink eye scars that do not affect them and one unmarked bull calf will be marked prior to loading. Vendor also has 2 more consignments in the same sale.
