Absolute please to handle any of the "Gilgi" cattle, A very quiet herd throughout and these heifers are no exception.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A quality run of Vendor bred Angus heifers for your competition. Predominantly Temania Angus bloodlines throughout with a splash of Knowla Angus also. Heifers are averaging 1.3kg per day in a containment pen. This was due to the declining season at the start of 2026. The Gilgi herd are some of the quietest well bred cattle that I get to assess. Pregtested empty and will either feed on or make wonderful matrons of the future. Buy with confidence. Please note a handful of heifers with white on udders and 4 heifer show small blue dot scarring in 1 eye. These heifers are the tops of the drop and would usually be retained.
