	Traits
4 Head	Slighly Cloudy eye - not detrimental

Assessor Comments: Full of Texas and Ben Nevis genetics - these heifers are bred to perform. Really long bodied, with good bone, shape and growth for age. These heifers also display good frame for their age. They were weaned early to ease the pressure on their mothers and have been on DDG Pellets and hay since early April. They present in fresh strong condition with clean healthy coats and really doing well. The breeding suggests that they will suit a wide range of markets - domestic through to heavy export. Ideal heifers to go onto crop and turn into heavy feeder heifers. Will suit grain or grass fattening. Given the opportunity these heifers would also make wonderful future breeders given their genetics. NB Vendor has 13 steers (brothers) in same sale. Vendor Bred.
