Assessor Comments

Quality line of vendor-bred Angus heifers presented in store condition and ready to power ahead. The vendor hasn't retained any heifers, with the complete drop being offered across two lots. They are bred from medium to large frame Reiland Angus bloodline females and are sired by quality Reiland Angus bulls. With the right opportunity, these heifers are expected to perform exceptionally well for the successful purchaser. These heifers would make excellent future breeders, or they would also perform well for any backgrounding operation. Previous buyers have spoken highly of the performance, doing ability, and consistency of the vendor's cattle. These heifers are eligible for grass-fed programs and have never been treated with antibiotics. Buyers should also note that the vendor will be offering two lines of Angus heifers and one line of steers in the same sale.
