	Other Treatment	13/05/2026	Multimin Injectable

Vendor Comments
Complete drop of W heifers with a small tail removed. Sad to see these girls go, but due to an excellent pregtest over the last couple of years we have no room to carry these on this year.

Joining Details
Not Station Mated

Any Access To Bulls or Stags?
To vendor's best knowledge, this lot has had no access to bulls or stags.

Temperament

Yards	Crush	Paddock
Docile: 4 head Quiet: 54 head	Docile: 4 head Quiet: 54 head	Temperament not assessed in Paddock

Extremely quiet heifers to handle. Excellent while being filmed in the yards and small paddock. Vendors are to be commended on these well handled heifers.

Handled With
Bikes , On foot , Vehicles

Notable Traits

	Traits
7 Head	Old pinkeye scars, tiny, in 1 eye only
13 Head	White underneath near udders

Assessor Comments
An EXCEPTIONAL line of black heifer weaners sired by Hicks bulls out of Angus cows. They are the complete drop with a small tail removed. Heifers are 10 -12 months of age and are showing very good length and muscle for their age. Weights 300 - 402kg to Ave 349kg full at assessment. These Heifers would normally be retained in the herd as future breeders, but due to excellent fertility in the herd pregtesting has not eliminated many girls to make room for these to come through. They are well grown, very quiet and would compliment any herd as future breeders or grow out to heavy feeders or kill cattle. Sired by Hicks composite bulls they are bred to perform. Bulls are selected on type, IMF, REA and early growth. They were excellent to handle in the yards and paddock while filming. A credit to the vendors on the temperament of the heifers.
