Score 1 Cattle

Vendor Bred	No Vendor has owned stock for More than 12 months							
Stock History	Purchased from North Queensland, Emerald & Charleville districts as breeders.							
Lifetime Traceable	Unknown							
Bloodlines	The majority show good bone, and growth for age. There are a number of smaller framed cows of mixed bloodlines. However all sound reproductively.							
Grazing Conditions	Until assessment date been on hayed off improved pastures, since then in holding paddock being fed Forage sorghum hay with access to short dry Rhodes grass & native grasses Returned same							
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment							
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives							
Chemical Residue	Nil Known to Vendor.							
J-BAS Score	6							
Vendor Comments	Property has been sold so they have to go! Been good fertile cows for the last few years & rearing some great crossbred weaners.

	Stirry: 10 head							
	These cows are safe to handle, they are fast through pound. Slightly stirry through yards and quite protective of their calves. They are - and handle like pastoral type cattle.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles							
Assessor Comments	Restockers or traders these cows have outstanding calves at foot and I'd expect a good percentage to be back in calf again. They are proven breeders and appear to be sound in the udder, hips, jaws and eyes. One red Droughtmaster cow has a strait o/s hind leg. one steer calf has a loose bit of skin on top of his neck behind his poll. These cows had been in the yards for 3 days being processed and fed hay & water of a evening and still averaged 445kg at assessment. The Calves on these cows are a credit to the breeder! they are well grown, castrated but no brand or ear mark. The property is sold so this is a genuine dispersal of breeders. Vendor also has another line of Breeders in this sale. I highly recommend these Breeders.
