Assessor Comments	Buyers on offer are an outstanding quality line of prime of life Pregnant Angus Females - 148 Cows offered, selling as 4 lines of 37 run of the gate. Cows are rising 3, 5 & 6 year olds, with the majority of the Cows rising 5 & 6. Cows are PTIC at assessment, 600kg, 6-7.5 months in calf to Pharo Angus Bulls, with an emphasis on the majority out of 170 cows testing in the first cycle & a half. About half of the Cows were Purchased directly in 2022 off Table Top Angus Stud in VIC at there production Sale as Empty Heifers, the other half were purchased as PTIC heifers out of VIC, Banquet & Rennylea blood, with a small portion of U Cows being vendor bred out of the cows by Te Mania Angus Bulls. Cows have an excellent temperament, they are large framed, heavy boned, big roomy cows, very true to type, well bred Angus Females. Cows had big weaners weaned off them a few weeks ago, now presenting in a forward condition, with plenty more gain to be had, would be 700kg average cows when in prime condition. Absolutely no expense spared when purchasing these females, vendor purchased high quality Angus females only. Vendor says that they have been an absolute pleasure to own, having outstanding calving results every year. ONLY selling due to the agistment running out and a change in operation, extremely regrettable sale. Vendor has the 16 later calvers in this same sale. A rare opportunity presents itself to purchase some prime of life genuine core Breeders. Buy with confidence
