Assessor Comments	Genuine breeder cows and calves for sale. A rare opportunity to purchase very good quality, young, quiet, well handled, medium to large framed Droughtmaster cows and calves. This cow herd have been carefully selected for fertility, temperament, bone, structure and growth over many years and are a credit to the breeder. These units are not culls, and are just a paddock of the cows with the earliest born calves that were got in and mothered up to be sold with the season turning drier. Tidy around the heads with 19 cows being polled, 1 cow having very small scurrs and 1 cow dehorned. These cows are 2-5 years of age, with 17 calves being by Rhondel Droughtmaster bulls and 4 by Bulliac Angus Bulls. 7 Male calves and 14 Females. Please note, one heifer calf is double muscled and at times appear to hold her head on a small angle. (photo)
