Notable Traits

	Traits
8 Head	Light eye scarring
20 Head	Light rubbing from lice under tail.

Assessor Comments	An excellent line of 65 x August/ September 2024 Drop PTIC Angus Heifers. Classed in Rennylea blood heifers joined to LBW Rennylea sires, the heifers were foetal aged at pregnancy testing and identified to calve over a 2 week period from late August. Buyers can take the opportunity to buy healthy PTIC heifers of quality breeding and proven performance, they exhibit excellent temperament and present very well as a group. A wonderful opportunity to purchase a line of classed in heifers to calve over a short period of time. Ellendon select sires with structural soundness and above average growth, carcase and fertility EBVS. The Ellendon cow herd mature into medium to large frame functional and fertile females whose steer progeny reach heavy feeder weights within 12 months.
