Cows were joined from 1 Sept - 15 Dec however vet specified at pretest that all cows in this mob were due 1st 9 weeks of calving. Cows are predominantly TeMania blood with some Wattletop infusion. These cows are proven breeders having reared a calf every year. They are up to date with their 7 in 1 and were blooded for pesti as calves. Cows were mouthed at assessment and all in this mob are sound (odd cow missing a tooth). Vendor has 3 other lots in this sale. This mob is a total of 126 which will be split by a run at the gate.
