			Stirry: 2 head					
	Generally, a quiet lot of heifers, some heifers pushed and shoved while in the yards, but they were assessed on a very hot and muggy afternoon. Once they were by themselves in the yards, they were quiet and settled.							
Handled With	Bikes , Dogs , Vehicles							
Assessor Comments	A great line of Poll Hereford Heifers joined to Angus Bulls that are due to calve late autumn to early winter (May, June, July). They are rising two year old and weighed 481kgs at assessment. The Vendor has been breeding Poll Herefords for over 40 years and these heifers are being sold due to a change in direction in the vendors cattle enterprise. The heifers were Pregnancy Tested on the 9/12/2022 by Gunnedah Vet Clinic to locally sourced Angus Bulls. The Heifers are well grown for their age and present in good forward store condition. These heifers represent an opportunity to purchase years of Poll Hereford breeding							
Assessor	Tim Walsh (Level 2 Accredited) Parallel Assessed By : Sean Latham
