Assessor Comments	A Good Quality line of Angus cows that present in predominantly store condition. Mostly large framed these cows with the right management and feed will fatten out nicely. Purchased as various mobs locally direct from the breeder. The calves were weaned a month ago. Vendor has decided to sell looking at a slow grass growing season ahead. The lighter cows appear to be the younger of the mob and will respond to crop or feed. PTIC to a quality Springwaters & Injemira Angus Bull. Unfortunately they weren't Marked late and early calvers but could be done.
