Assessor Comments	A quality run of 45 Droughtmaster X heifers that are genuine 1st calvers with 45 calves at foot. Heifers have done very well on grass, and these heifers will continue to explode and put on condition shown the opportunity with feed. These heifers are ready to take home and join to the bull of your choice. Heifers calving at a young age means that you will be purchasing proven future breeders, providing herd longevity. Please Note; the vendor has 30 heifers of the same line that were on the point of calving at assessment and is happy to negotiate accordingly with the successful purchaser. An opportunity not to be missed.
