	Typical station cattle. Handled correctly and slowly whilst mustering and doing the yard work in the cool, the cattle moved through an old fallen down timber yards and process reasonably well and efficient. Although when isolated or overheated became agitated when mouthing or drafted off singularly. Other than that blocked up easy with dogs and horses and bikes leaving the yards and walked down to water with ease. Experience stockmen recommended.

Assessor Comments	A Good line of mixed age Santa & Droughtmaster x cows with a nice run of calves on them. To see future potential progeny go to Eastern States sale 13/1/2023 Lot 334 Sold \$3050. The dry sisters were hooked last week averging 280kg dressed. This line was Purchased in light condition from the Channel Country QLD from a highly fertile mob in March 2022. Cows have not looked back moving forwards and continuously joined to a Booramooka Angus blood bull since calving. Cows present well milking very well and are doing a great job on their even line of calves 110kg avg. Cows Majority red Santa Gertrudis appearance with a drought master and Short horn influence. After Mouthing 90% of the mob and assessing 100%, it is evident that the buyer has an opportunity to continue on for a few years with up to 80% of the mob suiting a restocker with 20% a genuine split trade job. Vendor has 3 lines in sale 140x140 same cattle. Cracker cows and culls pulled out at assessment.
